

# THE DENTAL ESSENTIALS

for a cavity free childhood...

“The Dental Essentials” is the first and only nutritional supplement on the market today specifically formulated to promote cavity resistance.

In fact, the ingredients in “The Dental Essentials” have been clinically proven to reduce the incidence of cavities by up to 95%.

Taken daily, “The Dental Essentials” can also help heal tooth decay that may have already begun. No filling, no drilling, no kidding!

Results can typically be achieved in as little as three months so your child’s next trip to the dentist can be cavity free.

## A FORMULA FOR EVERYONE: YOUNG, OLD AND IN BETWEEN

“The Dental Essentials - Complete” offers all the nutrients necessary to achieve cavity resistance in easy to swallow tablets.

This balanced, synergistic blend of vitamins and minerals is perfect for adults, older children and adolescents.

One bottle contains 120 tablets which is a typical one month supply.

“The Dental Essentials - Liquid” offers flavorless, odorless, and easy to use drops suitable for babies and younger kids.

Add the drops to milk or other calcium source to get all the required nutrients to achieve complete cavity resistance.

One bottle contains 1000 drops, which lasts up to 6 months.

## Is a cavity-free childhood really possible?

Absolutely. It's not only possible, it's easy, cost effective and natural.

And it is exactly what our small, research based company is striving for. Our goal is to change the idea that cavities are ‘normal’

Children in almost every family you know, regardless of income, education or background has cavities and fillings in their mouths. It's become accepted as ‘normal’ or inevitable. The fact is: it's neither.

Clinical studies have shown repeatedly that with proper nutrition (through food or supplements), teeth can become healthy, well calcified and nearly immune to decay.

“The Dental Essentials” can help make cavity free teeth the new ‘normal’.

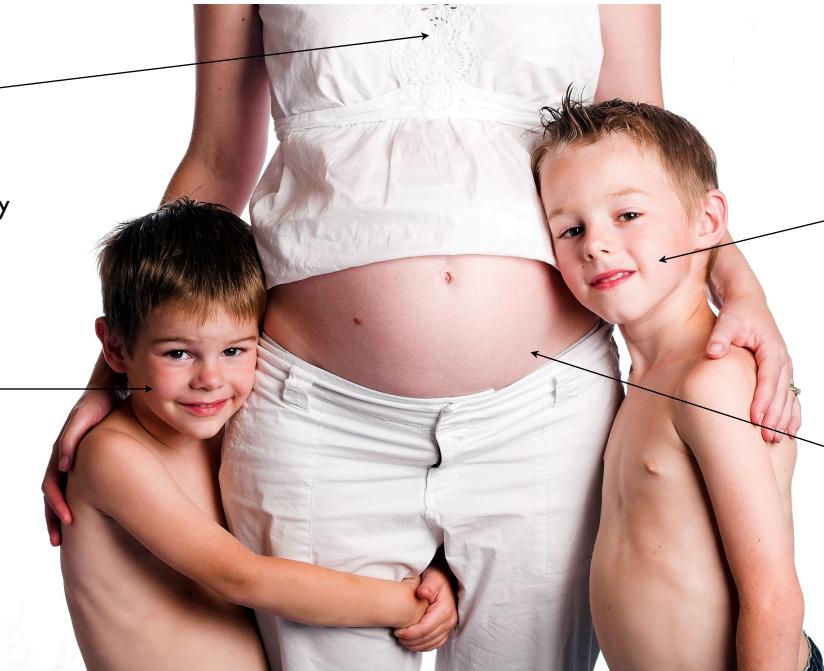

## WHAT "THE DENTAL ESSENTIALS" CAN DO FOR YOUR FAMILY

Moms suffer from tooth decay and sensitive teeth during pregnancy and nursing. This is a crucial time to keep teeth healthy and strong.

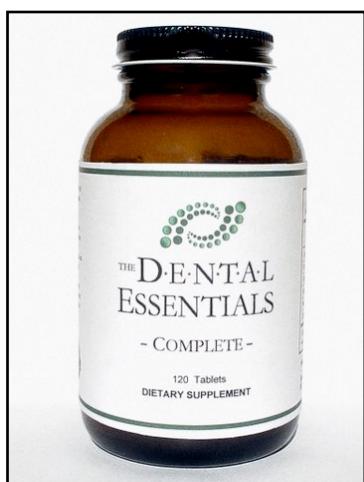

Little brother loves his candy but mom gives him "The Dental Essentials" daily with his milk to keep his teeth highly calcified and resistant to decay.

Big brother has a brand new cavity forming. "The Dental Essentials" can help heal it before dental fillings become necessary.

Growing baby sister will benefit from the vitamins and minerals in "The Dental Essentials" by developing strong enamel and well calcified teeth. She has a good chance of never developing a single cavity.

### IT'S WHAT'S INSIDE THAT COUNTS...

#### **The Dental Essentials - Complete**

A balanced blend of vitamins D<sub>3</sub> and K<sub>2</sub> (as MK<sub>4</sub> and MK<sub>7</sub>), calcium phosphate, magnesium and zinc. Our all in one cavity solution.

#### **The Dental Essentials - Liquid**

A balanced blend of vitamins D<sub>3</sub> and K<sub>2</sub> (as MK<sub>4</sub> and MK<sub>7</sub>). Add to milk or other calcium source for maximum effectiveness.

### A BIT ABOUT US
